Subject: CASGEM Comments

To Whom it may concern,
We have concerns about sending privacy and security data through the internet . This information could be intruded or hacker attacked.

Examples of data information sending through the internet.
1.Detailed maps with well locations.
2.GPS readings of well locations.
3.Well complication reports.

Possible ideas to prevent internet security.
1.Send security data by land mail.
2.Each agency must keep these forms on file.

Sincerely,

Paul Urenda
Superintendent of Operations
